JUDGEMENT FOR PLAINTIFF.

In the case of Mary A. Downey v. Emalia Silva, Thomas Silva, John Silva, George Silva, Sarah Silva, Rosie O'Hara, Mary Ann Homer, Hattie Doak, Joseph Silva and Emily Silva, Jr., Judge Robinson in his judgement today said that it appeared that the defendant had no estate, or right or title or interest whatever in the premises and land of the plaintiff and that the plaintiff was in possession at the time of the commencement of the action, and that her title was good and valid. He, therefore, ordered that the defendant be restrained from attempting any claim whatever, defendants to pay the costs of the action.

STOCKS STILL ON THE RAGGED EDGE

Stocks sagged again this morning, practically every active paper except Hawaiian Commercial being lower than yesterday. There were those who thought that the bottom had been reached yesterday, but they have another "guess coming"—and, indeed, may not realize their hopes for some days to come.

Fifty shares of Oahu sold at \$28.75 and 10 shares at \$29. At the close this morning \$28.75 was asked for the stock. Yesterday's sales were at \$29, so that the market is depressed at least a quarter.

Between boards 10 shares Waiakua sold at \$112.50, followed by 10 shares at \$112. At the close of the session this morning \$110 was bid and \$112.50 asked. At the close yesterday Waiakua was bid \$112.50 and \$113 asked.

Hawaiian Commercial developed strength over yesterday and is on a fair road to recovering some of its lost ground. Between boards a sale of 50 shares was made at \$35, and at the close this morning \$35 was bid and \$35.50 asked.

Ewa was also off a point or more. Yesterday's closing quotations were \$30.75 bid and \$31.25 asked. On the board this morning 50 shares sold at \$30.625, followed by 25, 5 and 5 at \$30.50. At the close \$30.375 was bid and \$30.50 asked.

A sale of 9 Pioneer was made at \$207.50, after which \$205 was bid and \$210 asked. This is a considerable drop, yesterday's quotations being \$212 bid and \$213.50 asked.

McBryde also yielded to the depression, 20 shares selling at \$5 ft. Yesterday's quotations were \$5.125 bid and \$5.50 asked. At the close this morning \$5 was still bid for the stock.

SUGAR BEETS FOR BRITISH ISLES

LONDON, Sept. 23.—G. L. Court-hope, M. P., has again spoken upon the question of the production in which he is very much interested. In the course of his remarks, made at the meeting of the British Association, he declared that if we had followed the example of our continental friends a few years ago, and had set to work to produce our own sugar, we should have today 750,000 acres growing beets, to say nothing of 50,000 hands employed in from 300 to 400 factories. We import, he declared, 30,000,000 hundredweight of sugar every year, which we should be, and ought to be in the future, producing for ourselves.

Sigmund Stein, who has had considerable experience in the growing of this valuable product, also spoke upon the subject, and maintained that the British Isles are well suited for the cultivation of beet. He further declared that cane sugar was no sweeter than beet sugar, and he pointed out that sun was not essential for the growing of beet, in fact, the sunniest countries grew the poorest beetroot.

MR. ANGUS RETURNS.

George H. Angus, manager of the hardware department of Theo. H. Davies & Company, returned in the Sierra this morning from a tour of several months in the States and England. He was accompanied in his travels by Mrs. Angus. Mr. Angus will resume his duties early next week.

DILLINGHAM BACK.

Walter F. Dillingham, head of the local dredging company and Vice President of the Merchants' Association, returned in the Sierra this morning from San Francisco. He was over on business in connection with dredging operations at Pearl Harbor.

A CHANGE OF TUNE IN LAND OF FILIPINOS

The Cables-American, of Manila, published the following of local interest:

Opposition to the exportation of Filipino laborers to Hawaii has developed in a most unexpected quarter. A protest has been raised by the Hawaiians themselves. At least such is the report that comes from Honolulu.

It was generally supposed that the people of Hawaii were delighted with the imported Filipinos. It was anything to get rid of the Japanese labor Frankenstein that was hovering over the sugar plantations of the islands. The territorial government joined in the efforts of the sugar planters to find a substitute for the Japanese. A law was obtained that provided for the encouragement of immigration. Emigrants were sent to the south of Europe, Russia, and even to the West Indies to find laborers. None of these sources supplied satisfactory immigrants. Then the attention of the Hawaiian plant and the government was turned to the Philippines. Agents of the sugar men came here; with what success is well known to the people of these islands. Several thousand Filipinos were prevailed on to "migrate" to Hawaii on what appeared to be very liberal terms.

For some time the Hawaiian press and the planters of those islands had nothing but praise for their new-found laborers. More recently, however, there has been heard a note of dissent from Honolulu. Reports in the daily papers there indicate that the Filipino laborers have not been an altogether unmixed blessing to everybody in Hawaii. Yet so far as can be

learned they are about the best laborers imported by the planters, and their employers appear to be fairly well satisfied with them.

Just now, however, the Hawaiian native seem to have discovered that the Filipinos are a menace to Kanakas. The assertion of Agent Steven published in the Cables-American some weeks ago, to the effect that he proposed to recruit some 20,000 Filipino emigrants for the Hawaiian Islands, is said to be stirring up quite as much of a riot over in Honolulu as the importation of Japanese Jimkris has once created in Manila.

A correspondent telegraphs the San Francisco Chronicle that the native Hawaiians, who control the politics of the territory, propose to kill the territorial law that allows the collection of a special income tax the proceeds of which are devoted to the bringing of "immigrants" to Hawaii. According to that report the Hawaiians have about the same fear of the Filipino that the later professes to have of the American; he sees himself supplanted by a sturdier race. Strange to say the Kanaka appears to have more fear of the Filipino in this respect than he has of the American. It is suggested that the Hawaiian agitators will even go so far as to ask Congress to put the Filipino and the Chinese on the same footing so far as Hawaii is concerned and prohibit immigration from the Philippines. All of which goes to show that the Filipino politico is not the only politician who thinks his people can lift themselves by their boot straps or make themselves a nation by fiat.

A wireless message has been received from the Pacific Mail S. S. Mongolia stating that she will not arrive until daylight tomorrow morning. It is hoped to get the steamer away by evening, but as she has 2500 tons of cargo for Honolulu, it is hardly considered likely that this will be so. She will probably get away for San Francisco on Sunday morning.

"THE ONLY GIRL"

After five years of patient waiting, Mr. P. Maurice McMahon's long vigil for "the only girl," was rewarded this morning when she arrived on the O. S. S. Sierra. Five years ago the popular court reporter and poet bid her adieu in Ireland, and since that time he has not seen her. Now, however, the intervening years will be bridged over, and, either this afternoon or tomorrow, marriage will take place.

Mr. McMahon has often told of his approaching nuptials, but the name of the other half of the combine was never mentioned. So far it has not been told, although the license has been taken out.

The Star adds its congratulations to the many that the happy couple are sure to receive.

OVER 300,000 TREES WANTED

A meeting of the Board of Agriculture & Forestry was held Wednesday afternoon. Lengthy reports were submitted by the board's officers, and when these had been presented, the board went into executive session, from which the press representatives were requested to withdraw. Land Commissioner Campbell intimated that Mr. E. M. Ehrhorn had a matter to submit at the executive session.

Superintendent of Forestry R. S. Hosmer in his report, referred to the planting plans, and said that at the second national conservation congress held recently at St. Paul, Mr. Henry S. Graves, the Chief forester of the United States, said "The practice of forestry by private owners is a public necessity." Acting on the spirit underlying this statement the Division of Forestry devoted considerable time and energy to assisting individuals and corporations who wished to plant trees. During September a comprehensive plan for forest work on Lanai was drawn up by the Superintendent of Forestry and submitted to the officers of the Lanai Company.

The Molokai Ranch Company has started to put into operation the recommendations contained in the planting plan prepared for that ranch a few months ago. Satisfactory progress is also being made in getting trees ready at the nursery of the Parker ranch for planting the portion of the Kohala mountain above Waimea village, Hawaii.

Forest Nurseryman David Haugs reported that the plant distribution for September was as follows:

Sold in seed boxes, 19,000; in boxes transplanted, 1,400; pot grown 534. Grats in seed boxes 500; in boxes transplanted 3,700; pot grown 2,734. Total 27,868.

The principal work at the nursery, he stated, has been that of preparing for arbor day, and sowing seeds and executing some of the large orders on file. At present there are orders on hand for over 300,000 trees. Makiki has also been busy getting trees ready for arbor day.

THE PROMOTERS HANDLE ROUTINE

Aside from consideration of the matter submitted by Secretary Wood in his usual weekly report, the Promotion Committee did little except talk at the meeting held yesterday afternoon.

Mr. McInerney reported progress on his scheme to organize a coffee exchange here, the object of which is to exploit the merits of Hawaiian coffee. The speaker also reported the receipt of a letter from his brother, giving some additional particulars concerning the situation at Atlantic City.

A number of surf-riding pictures were examined, the committee desiring to select some good design for a poster, illustrating that sport.

Here the committee switched off into the business of the Merchants' Association and took up the question of the United States army buying beef on the mainland for troops stationed in Hawaii. Undoubtedly the War Department will retire before this onslaught.

QUARANTINE CASE ON TRIAL

The charge of having broken quarantine, preferred against twenty-four members of the crew of the Wilhelm, was continued yesterday afternoon before Commissioner Judd.

The night watchman of the vessel gave evidence to the effect that he was stationed at the foot of the gangway, and that several persons left the ship and went on board on presentation of passes signed by Dr. Ramus. Stevedores went up and down the gangway, and they were not in possession of passes. It was also stated that the members of the crew had been vaccinated before the vessel reached the wharf.

Attorney Davis, who appeared for the defendants, moved that they be discharged from custody. He stated that it had not been shown that real quarantine existed. He referred to the refusal to permit the crew to go ashore, as discrimination, which he characterized as violation to the constitution.

Commissioner Judd said that he would like to ascertain from Dr. Ramus what orders, if any, he gave to the stevedores to board the Wilhelm. Dr. Ramus had gone to Hilo, so it would be necessary to adjourn the matter until his return. The case was, therefore, continued until Monday next.

HAWAII'S NEW MILITARY STATUS

San Francisco Chronicle: Word was received from the War Department yesterday to the effect that the Army posts of Hawaii are to be consolidated into a district command under a Brigadier-General. The district will continue to be a part of the Department of California and will comprise a regiment of cavalry, one of infantry, a battalion of field artillery and a battalion of coast artillery.

CATTON VISITS SCOTLAND.

Robert Catton, of Catton-Neill Company, returned this morning from a visit to his old home-land, Scotland, and the States. He was away about three months, and had a most enjoyable tour. Mr. Catton reports that he met an unusually large number of Hawaiian people, travelling, both in America and Europe.
